2023 Letter from the Board Chairman

First off, on behalf of the Board of Directors and the credit union membership, I would like to thank Sharon Churchill, our long serving President and CEO, for her many years of dedicated service. Sharon recently retired and, like all too many, has gone to live in Florida where she and her husband will be able to enjoy the less hostile winter weather. We wish her many years of doing whatever her heart desires!

Which leads me to the next subject: welcoming our new President and CEO, Dave Wilde. Dave was selected after a nationwide search which netted over 90 well gualified applicants. Dave's extensive credit union management experience (over 25 years), and open and enthusiastic attitude, gave him the edge over all the other candidates. Dave comes to us from Sun Federal Credit Union, headquartered just outside Toledo. Ohio, where he was most recently the Vice President of Marketing, Business Development, and Wealth Management. I hope you all will congratulate him on his appointment and wish him a warm welcome.

Now on to more mundane matters: no Board of Directors election this year as we had only the incumbents applying for the four open positions. I would like to welcome back Kristina Beletic, Richard French, Eric Moore, and Stephanie Miller. Stephanie was appointed mid-term to the Director position previously held by AJ Singh. Unfortunately AJ found that his busy schedule as a medical school student and resident was not compatible with being a CFCU board member (go figure!). Stephanie will have to run again next year (when AJ's term was due to expire) if she wishes to continue to serve on the Board of Directors, I'd also like to thank AJ for the time he did serve as a Board Volunteer and welcome him to run again when, and if, his schedule allows.

As many of you may have noticed, there was a big upgrade to the software that runs the credit union. Believe me when I say that the changes you've seen are just a small fraction of what went on behind the scenes. This complete revamping of CFCU's operating infrastructure involved a huge effort on the part of the staff. They are to be commended for their hard work and commitment to getting it right. While there were, and continue to be, some minor glitches, we hope you'll agree that it was worth it to keep our systems as up-to-date, efficient, secure, and cost effective as possible.

In conclusion, I wish to thank you again for your membership in CFCU! We will continue to offer the breadth of products and services, and the commitment to customer service, that encourage you to choose CFCU as your primary financial institution.

2023 Treasurers Report

From a financial perspective, 2023 was another successful year for our credit union considering the impacts of the post-pandemic economy, including continued volatile interest rates and increased inflation. The still higher than average inflation caused members to save less than normal. At the end of 2023, member deposits had decreased to \$388M, an \$11.4M or 2.85% decrease from year-end 2022 and decreased by \$30M or 7.24% from year-end 2021. At year-end 2023, assets totaled over \$434M, reflecting a \$12.2M or 2.74% decrease from prior year. As interest rates steadied in 2023, members continued to search for competitive rates. Throughout 2023, CFCU raised interest rates to retain and attract additional deposits. CFCU members responded by shifting their deposits to term share certificates for a higher rate with a longer duration. By the end of 2023, term share certificates totaled \$67M, an increase of \$30M from prior year balances. Due to the shift of deposits, the cost of funds on assets increased from .26% to 1.50% year-over-year, as the total interest expense paid out to our member deposits as dividends totaled \$4.3M, a favorable increase of \$3.5M or a 461% increase from prior year for our members.

Although CFCU is a non-profit organization, net income needed to keep our cooperative running totaled \$1.9M, a decrease of \$764k from prior year. The decrease in net income was mainly attributable to the increased amount of dividends paid-out to our membership (as noted above), as well as an increase in salaries and benefits by \$862K for the year as employees worked diligently with longer hours on implementing the new core conversion. Total Interest income for the year equaled \$18.4M, a \$4.7M increase from prior year while Non-Interest income, including fee income, totaled \$2.94M, a \$64K decrease from prior year.

Due to the increased interest rates and tight housing market, CFCU experienced a decline in overall loan activity. CFCU processed a total of \$87.8M in loan volume in 2023. After \$29M of contractual retirements, \$40M of VISA payments, \$32M of loan pre-payments and \$5.4M of loan participation payments, this netted to a decreased loan portfolio balance of \$18.9M from prior year. Charge-offs for 2023 totaled \$962K or .34% of total loans, while recoveries totaled \$174K or .06% of total loans, resulting in a net charge-off of \$789K, a \$447K increase from prior year.

CFCU remains healthy with a net worth to assets ratio that favorably increased from 9.87% to 10.35% by year-end 2023, classifying our organization as well-capitalized by the NCUA (National Credit Union Association). While CFCU remains committed to continued safety and soundness, we strive to enhance the value of your membership and improve your financial wellbeing. We thank all of CFCU's loyal and supportive members and look forward to another great year as we focus on growing this great cooperative.
