

# Getting Started

## Log Off

For your security, you should always log off when you finish your online banking session. We may also log you off due to inactivity.

1. Click **Log Off** in the navigation menu.
2. Close your internet browser.

## Approaching Timeout

For your security, Century Federal Credit Union has built in a timeout feature into our online banking. If you have not performed an action in 20 minutes, a warning message will appear.
