Account Summary Overview

If you ever need to quickly assess how much money is in all of your accounts, you can scroll down to the Account Summary graphic on the Home page. This interactive chart represents your total assets, represented by specific colors and percentages.

- A. The Total Assets widget gives you the total amount of money in your accounts and breaks down those funds into percentages.
- B. Each colored piece represents one of your Century Federal or linked accounts and displays its percentage of total funds as well as the balance.
- C. Clicking **Next** or **Previous** lets you view different accounts and details.
- D. You can click **View Transactions** for more information.
