## Security Preferences

We take security very seriously at Century Federal. Because of this, we've added various tools to help you better protect your account information. You can add and manage these features in Security Preferences to strengthen your Online Banking experience.

1

## Change Password

When you need to, you can change your password within Online Banking. We recommend that you change your password regularly and follow our guidelines for creating a strong password.

### Change Password

A form for changing a password. It consists of three input fields stacked vertically. The first field is labeled 'Old Password \*' and contains the text 'Old Password'. The second field is labeled 'New Password \*' and contains the text 'New Password'. The third field is labeled 'Confirm New Password \*' and contains the text 'Confirm New Password'. To the right of the third field is a pink button labeled 'Change Password'. A black box highlights the three input fields.

2

In the **Settings** tab, click **Security Preferences**.

1. Click **Change Password**.
2. Enter your old password.
3. Create a new password.
4. Reenter your new password.
5. Click **Change Password** when you are finished.
