Enabling Passcode Authentication

Create a unique passcode within our Mobile Banking app to quickly and easily sign in to your Mobile Banking on the go!

In the **Settings** tab, tap **Security Preferences**.

1. Toggle the **Passcode** switch from “Off” to “On.”
2. Review the information about using a passcode and tap **Create Passcode**.
3. Create your 4-digit passcode using the keypad.
4. Confirm your passcode using the keypad.
5. Enter your login ID and password and tap **Authorize**.
